Dear Sir,

I have very little to gain by a settlement, but I Had 800 shares of microsoft as the investment climbed in the past all of a sudden a fellow graduate SunMicrosystems convinced everybody he was the injured party. For 4 months I had stock in SunMicrosystems as recommended by JBOH. I held it and never made a trade. After transfer to First Union I still hadn't been able to trade for a profet it was only after Microsoft got in trouble, and long after I sold my shares in SunMicrosystems did SunMicrosysems stock move.

After changing my account to Fidelity Instead of buying Intel I bought Microsoft and for two years Microsoft only did good for those of us investors.

The courts made an unfavorable ruling and the entire USA and world economy has been suffering. People like me that have a stock that's climbing invest in other stocks by margin spending.

I can tell you from experience that when Microsoft dropped I could no longer acquire stocks that I was investing in because my portfolio didn't have any winners left.

I don't even have 50 shares of Microsoft.

I have 300 Ford

" " " Juniper

I " 300 Xerox

I hope Microsoft can reclaim their leadership. I wish I could be rich or at least get some shares on margin.

Last year I had 540,000 shares of a certain stock which reverse split 1:50 and then 1:40 leaving me with 450 shares

I sold 400 shares for \$4000. which I also lost .

People Like Bill Gates I liked spending the money he was making me. I would like to do it over and be a soft spoken and generous as he is generous. I would like to have confidence that can make a man so soft spoken.

I hope this letter affirms that I want the market to go up, not down, and Bill Gates and company are past and have the potential to be future leaders.

All businesses have like sports have outstanding contributors. Microsoft is one company even my parents liked and encouraged my owning stocks.

With Respest,

George M. Kousaleos

P.S. I do not own any Microsoft today but I would risk some money if the economy picks me up.
